

Internal/External Employment Opportunity

- JOB TITLE:** Principal Engineer or Senior Engineer – Dependent on Qualifications
- JOB STATUS:** Exempt
- PAY RANGE:** Principal Engineer: \$8,308 - \$11,181 per month
Senior Engineer: \$7,740 - \$10,417 per month
- CLOSING DATE:** Open Until Filled; First Review of Applications: Friday, September 5, 2014
- DUTIES:**
- Principal Engineer* - Under the general direction of the Assistant Director of Engineering, supervises the work of engineering personnel; provides professional engineering expertise; develops and manages major Capital Improvement Program projects and overall program; works closely with Operation staff implementing infrastructure upgrades, repairs, and replacements; interfaces with governmental agencies, developers, contractors, and engineering consultants; prepares various reports, requests for proposals, contracts, etc., necessary for implementing various water, recycled water, and wastewater related projects.
- Senior Engineer* - Under the general direction of the Principal Engineer, performs highly responsible civil engineering work; executes and manages complex engineering and Capital Improvement Program projects; works closely with Operations staff implementing infrastructure upgrades, repairs, and replacements; oversees consultants, contractors and subordinate staff in project execution; prepares various reports, requests for proposals, contracts, etc., necessary for implementing various water, recycled water, and wastewater related projects.
- Both jobs require the incumbent to utilize considerable independence in selecting work methods and procedures. Duties and responsibilities are carried out with considerable independence within the framework of established policies and procedures. The work is complex and involves significant accountability and independent decision-making responsibilities.
- QUALIFICATIONS:** Possession of a Bachelor's degree from an accredited four-year college or university in civil engineering or related science. Masters degree in a related engineering or management major from an accredited university is desirable.

**Internal/External Employment Opportunity
Principal Engineer or Senior Engineer**

Must be a registered Professional Civil Engineer in the State of California. Must possess a valid California driver's license and maintain a safe driving record.

Principal Engineer - Ten years or more of professional engineering experience in project management, planning, design, construction oversight, supervision and administration of water, recycled water, and wastewater facility implementation and utility operations, including a minimum of 3 years of progressively responsible supervisory experience.

Senior Engineer - Five to twelve years of professional engineering experience in project management, planning, design, construction oversight, supervision and administration of water, recycled water, and wastewater facility implementation and utility operations.

**PHYSICAL
REQUIREMENTS:**

Must be able to carry, push, pull, reach, and lift parts weighing up to 40 lbs.; must be able to work in an environment that could produce exposure to dust, dirt, water, potable water, significant temperature changes, and inclement weather; and, must be able to communicate effectively with the Board of Directors, District staff and customers in face-to-face, one-on-one settings and in group settings.

**APPLICATION
PROCEDURE:**

Internal Candidates: Please obtain a job bid form from the Human Resources Department.

External Candidates: Please complete a District Application for Employment, which can be obtained from our website at www.mnwd.com.

This recruitment is open until filled. All applications received by 5 p.m. on Friday, September 5, 2014 will be reviewed for inclusion in the first round of interviews. Completed job bid forms and applications should be submitted to the Human Resources Department as soon as possible.
