DECEMBER 2017

Local Student Named Moulton Niguel "GM for the Day"

We were happy to have Laguna Niguel residents, Beck and Teresa Winters, join us for a fun-filled day visiting local wastewater facilities and learning about Moulton Niguel's commitment **to treat our region's wastewater in an environmentally responsible manner.**

Beck Winters, a 5th grade student at Moulton Elementary, who we named "GM for the Day" for his keen interest in water issues, learned all about the wastewater treatment process and how we maintain more than 500 miles of wastewater pipelines!

"I didn't know it was so hard to recycle sewer water into recycled water," Beck said after visiting the regional lift station and the regional treatment plant. "I'm probably going to conserve water more now."

Beck takes a peek into an underground wastewater collection basin as he learns about how the local community's wastewater is collected.

Our GM for the day poses with Moulton Niguel General Manager Joone Lopez.

Connect with Moulton Niguel!

We welcome our local communities to tour our facilities and experience first-hand how we provide a safe and reliable water supply to our communities. Whether it's a facilities tour, a meet-and-greet with District staff in the office, or a phone call to get your questions answered, we want to make sure we are available to continue providing high levels of service to our valued customers.

Moulton Niguel Recognized for Sustainability Efforts

Moulton Niguel Water District was honored by SustainOC, one of Orange County's leading sustainability-focused non-profit organizations, for our efforts **to protect local creeks, streams, and beaches from pollution caused by urban runoff**. Named a finalist for Sustainable Government of the Year at SustainOC's 2017 Conference, the District was recognized for its programs to mitigate urban runoff.

When you overwater your lawn, the wasteful water flows from your driveway through the storm drain and into local creeks and waterways. We encourage all our customers to water efficiently, particularly outdoors where up to 70% of water is used. Read more about the District's recognition at www.mnwd.com/newsroom.

Have questions about your water use or want to learn how you can reduce your outdoor watering? Call our Water Efficiency Department at (949) 448-4025 or email us at conservation@mnwd.com!

Continued Water Reliability in 2017

To enhance Moulton Niguel's mission to provide reliable, cost-effective service to our customers, plans for the upcoming year reinforce our commitment to renew investments in our infrastructure, increase operational efficiencies and environmental protection through expanded efficiency programs, while maintaining the lowest average bill in South Orange County. Some of those planned projects and programs to increase water efficiency and reliability include:

New water efficiency programs, offering turf removal assistance and smart timer installation

Operations center consolidation and improvement project

Improvements to the District's valves, pumps, reservoirs and pipelines

upcoming meetings & events

Join Moulton Niguel at an upcoming public board meeting or water efficiency workshop! For up-to-date information and a full list of events, visit www.mnwd.com/events.

Please note that District offices will be closed on Monday, Dec. 25th, but please call us at (949) 831-2500 for emergency water service.
