Moulton Niguel Hosts “H2O for HOAs” Workshop

Did you know that nearly 75% of our residents live in one of nearly 400 HOAs in the Moulton Niguel service area? Recognizing the importance of reaching out to this large customer base, Moulton Niguel held a specialized workshop focused on providing water education and information to HOA property managers, board members, and landscapers. Attendees learned more about water-saving techniques, eliminating runoff, and protecting water quality.

The workshop was co-hosted by local cities and water districts, which demonstrated the value of regional partnerships in South Orange County in helping large customers manage their water use. Nearly 100 attendees, speakers, and exhibitors gathered at the Laguna Niguel City Hall on April 26 for a morning filled with water education presentations and networking opportunities. The presentations covered a broad range of topics including stormwater best management practices, water efficiency rebates, resources and tools, integrated pest management, and native plants and landscapes.

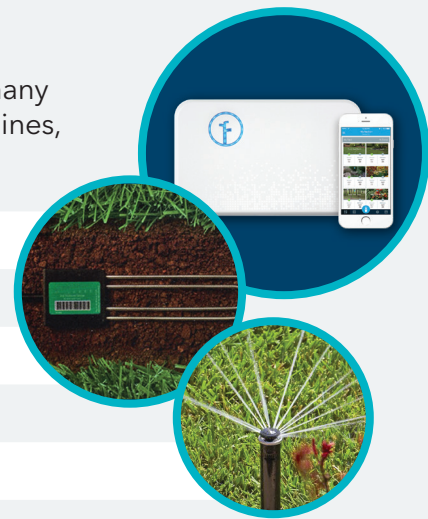

“We had great questions from the attendees, and it was a valuable opportunity for us to continue engaging with such a large and unique customer base,” said Moulton Niguel Water Efficiency Manager Lindsey Stuvick, who presented on the District’s water efficiency and rebate programs, and the benefits of efficiency and conservation.

Moulton Niguel Educates Students and Young Professionals on Water Careers, Infrastructure

Over the last few months, several different community groups visited us to learn about topics ranging from water supply, conservation, infrastructure, careers and much more. At Moulton Niguel, we appreciate the opportunity to meet with our customers and interested community members to showcase how we provide high-quality water on a day-to-day basis. Students and young professionals of all ages toured District facilities to learn firsthand about how our infrastructure delivers reliable water service, and got to meet the staff who oversee our daily operations. We were pleased to have our Board Members participate in several of the events and lead discussions about our service-minded organization.

A group of young professionals in the Coro Fellowship Program learned what it takes to replace a valve and why doing so is important to the District's infrastructure improvement and water reliability program.

A homeschool co-op class at Capistrano Valley Christian School learned about water conservation and water operations as they toured a local pump station to understand how water is delivered to their homes.

Local middle school students learned about the wide range of exciting career opportunities in the water industry as they visited with District Staff at our Operations Center.

FREE Landscape and Irrigation Workshops Offered this Summer

This summer, we are continuing to offer both of our landscape and irrigation workshops. Both workshops are free, interactive, and educational!

What Will Each Class Cover?

All Things Irrigation Workshop

- Learning about efficient outdoor water use
- Understanding how to calculate your budget
- Diagnosing common irrigation problems
- Fixing and retrofitting your irrigation system
- Taking control of your sprinkler timer

NatureScape Landscape Workshop

- Taking a watershed approach to landscaping
- Building healthy soil
- Using rainwater as a resource
- Managing your irrigation properly
- Becoming pre-qualified for our NatureScape Program

WORKSHOP DATES FROM JUNE - AUGUST

Photo by Pete Veilleux East Bay Wilds

All Things Irrigation Workshop

Saturday, June 2	9 am-12 pm
Wednesday, June 27	6 pm-9 pm
Saturday, July 21	9 am-12 pm
Saturday, August 25	9 am-12 pm

NatureScape Landscape Workshop

Saturday, June 9	9 am-12 pm
Saturday, July 7	9 am-12 pm
Saturday, August 11	9 am-12 pm

Ready to take on your landscape project this Summer? Registration is required, and classes fill up early, so sign up today! Visit www.mnwd.com/workshops for more information and to register.
