Moulton Niguel Board of Directors Win Innovation & Sustainability Award

The Moulton Niguel Water District Board of Directors were honored with a WaterNow Alliance Impact Award for accelerating innovative and sustainable water solutions in the community. The award exemplifies Moulton Niguel’s visionary leadership that has made the District a statewide example of innovation, sustainability, reliability, and water use efficiency. Under the Board’s leadership, Moulton Niguel continues to develop multi-faceted strategies for water reliability and environmental stewardship, water efficiency, urban runoff reduction, and energy management.

Through these initiatives, and many more, the Moulton Niguel Board has saved millions of dollars for its customers while developing innovative strategies towards improving statewide sustainable water management. Historic Action on Regional Water Reliability: The California WaterFix

On April 10, 2018, the board of the Metropolitan Water District of Southern California, the region’s wholesale water provider, voted to provide additional financing necessary to allow for the construction of the full California WaterFix project. The CA WaterFix, a project to modernize the state’s aging infrastructure that delivers water from the Sacramento River, will improve water supply reliability throughout the State, retrofit water supplies against earthquakes, and expand water storage capacity during future droughts. The project consists of a plan to build two 40-foot wide tunnels to move water around the vulnerable Sacramento-San Joaquin Delta to improve ecosystem health and water reliability throughout the state for both urban and agricultural users.

Earlier this year, the Moulton Niguel Board of Directors facilitated a panel discussion on the CA WaterFix as part of its ongoing efforts to educate the public about statewide water issues. Expert panelists provided an overview of the project while emphasizing the importance of ensuring water supply reliability for our future. Moulton Niguel Water District’s Board of Directors approved a resolution in support of the CA WaterFix in March 2017. Read more about the Moulton Niguel community forum at www.mnwd.com/newsroom.

Looking for a Fun Summer Activity? Join us for our FREE Landscape & Irrigation Workshops!

We are continuing our landscape and irrigation workshops throughout the summer! Whether you're looking to learn how and when to plant climate-appropriate landscapes, or learn about efficient irrigation techniques, we are here to help!

Learn about what both classes have to offer and sign up for one today! Visit www.mnwd.com/workshops for more information.

2017 Water Quality Report Available Online

We are excited to announce that our Consumer Confidence Report, also known as our Water Quality Report, has been published for the calendar year 2017! We are committed to providing our customers with high-quality water and excellent customer service, while offering you the lowest water rates in South Orange County. We hope you enjoy reading this year's water quality report and learning about our commitment to deliver high-quality water to our communities. The report is available on our website at www.mnwd.com/ccr.

Community Corner: Earth Day Celebrations

As part of our commitment to environmental stewardship and sustainability, Team Moulton Niguel was out in full force at multiple community Earth Day events! Our staff provided interactive presentations, educational information, and fun activities that promoted water efficiency and environmentally-friendly practices. Thank you to our local cities and community organizations for hosting these important events. We are proud of our continued partnership!

Check out our Facebook page for pictures from past community events!
