GNPS Garden Ambassador

G3's US EPA WaterSense recognized Watershed Wise Landscape Professional Certification (WWLP) qualifies conservation, water quality and landscape professionals to evaluate irrigation systems and factor rainwater use into outdoor water efficiency analysis. Today's professionals need to be more than water wise, they need to become **WaterShed Wise** in order to manage the limited resources without sacrificing the beauty and functionality of our landscapes.

Sign up and learn how to:

- ✓ Conduct a Landscape Water Audit and Site Evaluation
- ✓ Remove Lawn and Build Healthy Living Soils
- ✓ Design Projects within Water Budgets using Plant Factors
- ✓ Design and Locate Rain Gardens
- ✓ Calculate Irrigation Run Times and Precipitation Rates to Eliminate Dry-Weather Runoff
- ✓ Identify New Water Efficiency Techniques and Technologies

Space is limited for this FREE workshop. Participants are required to attend both days. Breakfast, lunch, and snacks will be provided on both days for participants.
