

CAMINO CAPISTRANO YARD IMPROVEMENTS

Grading of South Yard

Completed South Yard Grading

Excavation for Drain Improvements

PROJECT LOCATION:

Mission Viejo

PROJECT SCOPE:

This project will provide a secondary operations yard utilized for material bins, pipe storage and spoils material to accommodate the District's current needs. The proposed work for this project includes grading; concrete material bin construction; paving; drainage improvements; fencing; lighting; and construction of a decanting and storage system for excavated wet soils.

Construction documents for the Camino Capistrano Operations Yard Improvements project were prepared by Tetra Tech.
