

LANDSCAPE & IRRIGATION

Existing Landscape and Irrigation

PROJECT LOCATION:

Laguna Hills

PROJECT SCOPE:

The proposed Landscape & Irrigation includes a comprehensive planting and supporting irrigation system to provide a cohesive landscaped facility that aligns with the District's goals in the use of more native, drought-tolerant plantings. The proposed landscaping plan includes the installation of a demonstration garden to allow the public a visual representation of the California Native plants.

Construction documents for the project were prepared by Ware Malcomb.

PROJECT DETAILS:

- Contract Award - 05/23/2019
- Construction Contract - \$865,284
- Percentage Constructed - 0%
- Estimated Completion - February 2021

NOTES:
