

## SITE IMPROVEMENTS

Proposed Site Improvements Includes Covered Parking for District Vehicles and Large Equipment to Increase Useful Life

### PROJECT LOCATION:

Laguna Hills

### PROJECT SCOPE:

The proposed Site Improvements include site paving and hardscapes throughout the facility to provide adequate parking for the District's fleet and employee vehicles, installation of covered parking to increase the useful life of the District's large equipment and vehicles, and to comply with current building code provisions. New fencing and access gates are also planned.

Construction documents for the project were prepared by Ware Malcomb.
