

FY 2017-18 VALVE REPLACEMENTS

Installation of New Valves and Tee at Spadra and La Paz in Mission Viejo

Valve Replacement at Trabuco and Los Alisos in Mission Viejo

New Valves at Marina Hills and Golden Lantern in Laguna Niguel

PROJECT LOCATION:

Various Locations

PROJECT SCOPE:

The 2017-18 Valve Replacements Project provides funding for the replacement of valves by District staff and outside contract services. The outside contract for construction services will replace key valves that have been identified by District staff and prioritized as part of the system wide valve replacement program. The 54 potable valves to be replaced as part of this contract are in 13 locations within the Cities of Laguna Niguel and Mission Viejo.

Construction documents for the 2017-18 Valve Replacements project were prepared by AKM Consulting Engineers. The work requires significant coordination between the Contractor and District Operations personnel to isolate and test the system to complete the project.

PROJECT DETAILS:

- Contract Award - 08/16/2018
- Construction Amount - \$1,924,350
- Percentage Constructed - 90%
- Estimated Completion - December 2019

NOTES:

Six valve replacements remain in Mission Viejo. Work to be completed in December.
