

California Native Garden

upon a fun, rewarding and ultimately important journey. The conversion of your lawn to a sustainable native garden. You are now part of a growing community of homeowners and garden-lovers returning a sense of place to the front and backyards of urban and suburban Southern California. Welcome home.

ADDING PERSONALITY TO YOUR GARDEN:

As Your Garden Grows...you will want to add personality and your own creative touch to your garden. Don't be afraid to experiment with containers, birdbaths, sculpture and other features to add your own unique touch to your garden. While the elements below are not included in your kit, they are all readily available throughout Southern California and beyond.

CONTAIN

RAINWATER CAPTURE, RAIN CHAINS and SWALES

WHAT IS CONTROLLING EOB PAIN? WHAT IS A SWAL?

Your garden features a 'dry creekbed' swale. This is an area that is lightly graded to infiltrate water and eliminate runoff from the landscape surface to **WHAT IS A SWALE?**

The purpose of a swale is to allow soil to cleanse water as it passes through as groundwater. Water allowed to run off our landscapes and down our streets to the ocean creates dirty outflows and polluted beaches. Healthy garden soil has the ability to filter cleanse and purify land-based pollution before it gets to

Plant List:

*Please note: If plants pictured are not available, a plant with similar size, growth habit and aesthetic character will be substituted.

Coastal Zone Garden - Laguna Niguel, CA

Full Sun/Part Shade in Sunset zones 22, 24

This garden is designed to thrive in Southern California communities where the typical coastal influence is not felt on a daily basis. This garden will feature great diversity in plant types and seasonal flowers, all of which will attract birds, butterflies, hummingbirds and beneficial pollinators. It will be completely drought tolerant and self-sustaining once established. This garden embraces the essence of our Southern California look with boulders, a pea gravel swale and contouring the land to allow rainwater to replenish the soil.

our new Garden will offer many possibilities for future fine tuning as you add more details and personality into the design. There are dozens of wonderful plants that can be used in containers and in the garden to complement in this basic information and we encourage you to include more variety in your garden designs.
